Amsterdam, May 2026

Dear President,

I am deeply concerned about the enforced disappearance of Humphrey Polepole, a former Tanzanian ambassador to Cuba and outspoken critic of the Tanzanian government. On 6 October 2025, he was abducted from his home in Dar es Salaam by unidentified security agents. Responding to an alert that his home had been broken into, his family found the front door broken, perimeter electrical wires cut, and a significant amount of blood at the scene. Reportedly, unidentified security forces were seen blocking the road leading to his house on the day he disappeared. To date, his whereabouts remain unknown.

I urge you to disclose his fate, release him if in custody, and end the use of enforced disappearances and repression against peaceful critics.

Yours sincerely,

Amsterdam, May 2026

Your Excellency,

I am deeply concerned about the unjust imprisonment of Abir Moussi. She has been detained for over two years. All charges stem from her peaceful political activity and criticism of government actions.

Abir Moussi was arrested on 3 October 2023 after attempting to submit an appeal against presidential decrees on elections and peacefully protesting the authorities' refusal to accept it. In December 2025, she was sentenced to 12 years in prison on unfounded charges. On 13 March 2026, her sentence was reduced to 10 years.

I urge you to immediately release Abir Moussi, overturn her conviction, and drop all charges.

Yours sincerely,

Amsterdam, May 2026

Dear Dr. Rolón,

I am writing to express grave concern about the armed attack on environmental human rights defender Rubén Irala (Ref.: File No. 355/2026), coordinator of the Diocesan Social Pastoral Ministry of Guairá.

On 20 March 2026, after working on a territorial conflict in the December 23 Settlement, Irala was attacked by armed men who fired at his vehicle. He survived and escaped.

Despite previous threats linked to his environmental work, the attack is being treated as common robbery.

I urge the authorities to investigate the attack properly, including his human rights work as a possible motive, and to ensure effective protection for Rubén Irala and his family.

Yours sincerely,
